-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Drawings

- a. Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

- b. Claims 4-6 are objected to because of the following informalities:

In claim 4 line 11, claim 5 line 1 and claim 6 line 13, "from" should be --form--.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte*

Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following is a statement of reasons for the indication of allowable subject matter: the prior art (including 6459457) fails to show or fairly suggest a composite video signal separation device having the combinations as claimed, including a delay memory, **multiple demodulators, coupled to the delay memory, and configured to demodulate the multiple delayed versions of the composite signal by a sub-carrier, generating multiple complex baseband signals, a vertical signal processing block, coupled to the multiple demodulators, and configured to process the multiple complex baseband signals, and configured to output a first separated signal**, a modulator, coupled to the vertical signal processing block, and configured to modulate the first separated signal, generating a remodulated signal, and a subtraction means, coupled to the modulator and configured to subtract the remodulated signal from one of the multiple delayed versions of the composite signal, generating a second separated signal, as recited in the claims. The prior art also fails to show a method for composite video signal separation having the combinations as claimed, including the steps of **obtaining samples of a composite signal, storing the samples in a delay memory, demodulating multiple samples from the delay memory by a subcarrier to form multiple complex baseband signals, vertically processing the multiple complex baseband signals to form a first separated signal**, modulating the first separated signal by a subcarrier to form a remodulated signal, and subtracting said remodulated signal from one of the samples of the composite signal to form a second separated signal, as recited in the claims.
